The Helsinki METREX Conference offers a future vision for our Metropolises, one where the focus is on urban living, how city-regions manage growth sustainably and achieve carbon-neutral living, yet ensure that there is social as well as spatial cohesion. It will be about Finnish housing and planning know-how and practices set within an international context.

*See you in Helsinki!*

Please tweet #METREXHelsinki
**METREX**
The Network of European Metropolitan Regions and Areas

**Wednesday 4 October**
METREX Expert groups & Nordic Network (for members only)

**Venue**
City Environment Services, City of Helsinki, address Kansakoulukatu 3

**Theme**
Living in the Future Metropolis

9.00–10.30
City Centre Walk-about: architecture and urban history of the Empire City

Starts at the Central Railway Station Main Entrance, Kaivokatu 1, and ends at the offices of City Environment Services, City of Helsinki. Guided by architects Tapani Rauramo and Christina Suomi

Registration for the Conference (lunch area)

10.30–12.00
NORDIC NETWORK - Douglas Gordon, City of Helsinki, Irma Karjalainen, HSY and Ilona Mansikka, UML

**METREX Expert Groups**

12.00–13.00
Light Lunch for Expert Groups in the City Environment Services’ Arena area

12.00–15.00 (members only)
TERRACOTTA/ Baltic Space Expert Group (working lunch) – Douglas Gordon, City of Helsinki

12.45–13.00 (during lunch)
EU Funding opportunities: Horizon 2020 | Heikki Kallasvaara, Senior Adviser, EU Affairs, UML

Insights on how METREX—members could best utilize the myriad of European funding sources, and especially the current Framework Programme for RD&I, Horizon2020

13.00–15.00
Parallel Meetings of METREX Expert groups – for METREX members only

- URMA Expert Group
- TERRACOTTA - Baltic Space (see separate time above)
- EconoMETREX Expert Group (new topic to be launched in Helsinki)
- Metropolitan Governance

15:45
Meeting at Old City Hall, Pohjoisesplanadi 11-13

16.00–17.00
Boat trip study tour – Helsinki by-the-sea

(For first 50 to register, METREX members only, please bring your badge with you)
Helsinki new waterfront developments and archipelago: Jätkäsaari, Kruunuvuorenranta, Kalasatama and Herttoniemi waterfronts

18.30–19.00
Registration continues at the Old City Hall

19.00–20.30
Opening Reception - The Old City Hall, City of Helsinki, address Aleksanterinkatu 20

(from the Senate Square, bring your badge/invitation with you)
Deputy Mayor of Helsinki, CEO Uusimaa Region, CEO HSY & Vice Presidents of METREX

Cocktails and buffet

City of Helsinki/Antti Pulkkinen
Jätkäsaari/ Ville Hakonen
Kalasatama/ Ville Hakonen
City of Helsinki/ Ville Hakonen
City of Helsinki/Ville Hakonen
City of Helsinki/Sami Kurikka

City of Helsinki/Vara Tieto
City of Helsinki/Sami Kurikka
City of Helsinki/Ville Hakonen
Thursday 5 October

Helsinki Metropolitan Day

**Venue**
Veranda 1, Finlandia Hall, address Mannerheimintie 13e

**Theme**
Living in the Future Metropolis

**Moderator**
Henk Bouwman, Secretary General of METREX

08.30–09.00
*Registration*

09.00–09.10
*Welcome and introduction*
Nicola Schelling – President of METREX

09.10–09.20
**Helsinki Metropolitan Area in a European Context**
Helsinki Mayor Jan Vapaavuori

09.20–09.50
**Keynote: European Dimension of Spatial Planning**
Professor Dr. Stefanie Dühr

09.50–10.45
**Helsinki Metropolitan Region – Metropolitan challenges and solutions**
- Regional context and challenges: Helsinki-Uusimaa Regional Council, Ilona Mansikka, Manager
- Sustainable metropol: HSY Helsinki Region Environmental Services, Irma karjalainen, Director
- Connectivity: HSL Helsinki Region Transport, Marko Vihervuori, Manager

Comments & discussion by METREX panel A - reflections from Europe Naples/Italy, Stuttgart/Germany and Amsterdam/Netherlands

10.45–11.15
*Coffee & Networking*

11.15–12.30
**Living in the Future Metropolis: the Metropolitan view**
- Development of Helsinki in regional context: network city of public transportation and urban boulevards / City of Helsinki / Mikko Aho, Executive Director, City Environment
- Development of Vantaa in regional context: new regional Ring Track and airport city / City of Vantaa / Tarja Laine, Director of City Planning
- Development of Espoo in regional context: new Western METRoline and economic development / City of Espoo / Tuula Antola, Director for Economic and Business Development

Discussion and audience participation

12.30–13.00
*Conference Speech: Looking into Urban Futures - through strong and weak signals*
Professor Sirkka Heinonen, Finland Futures Research Centre, University of Turku

13.00–14.00
*Study Visits New housing for the Future Helsinki Metropolitan Area:*
- Polycentric City Cores: HELSINKI (South) / VANTAA (North) / ESPOO (West)

Tour 1. HELSINKI by metro and tram: New Living & Working development areas on the Helsinki Waterfronts of Jätkäsaari, Kalasatama and Arabianranta
Tour 2. VANTAA by bus: New development areas for Living and Working in Vantaa City Airport & Aviapolis, Tikkuurila
Tour 3. ESPOO by bus: New development areas for Living and Working in Espoo: Tapiola, Keilaniemi, Otaniemi, city as a service, new Western metro developments

19.00–24.00
*Conference Dinner, Kellohalli*

Atmospheric dinner with a taste of tango. The new 'hip' cultural quarter in Helsinki is to be found at Kalasatama’s Teurastamo, formerly an abattoir. There are lots of ‘happenings’ there. Restaurants, organic foods, Finnish coffee, bookstalls or taste home-made ice-cream and even whisky made in the area. This is the setting for the METREX dinner in the KELLOHALI (literally, ‘ClockHall’) on the Thursday evening, with amazing organic foods on offer, lots of wine, and a band, where you can dance the Finnish tango into the wee small hours. Dress casual.
Friday 6 October

Metrex Europa Day

Venue
Crowne Plaza Hotel, address Mannerheimintie 50

Theme
Living in the Future Metropolis

Moderator
Juliane Kürschner, Senior Urban Planner

08.30–09.00
Registration + Coffee

09.00–10.20
Urban life from a European perspective
- Towards a new metropolitan agenda / Prof. ir. Joost Schrijnen
- Social housing aspects of Vienna / Kurt Hofstetter, Project coordinator, IBA
- Metropolitan demographic challenges and solutions of Stockholm Region / Jessica Andersson
  Head of Department, Stockholm County Council
- Helsinki City comments on the European Perspective / Mari Randell, Housing Director
  Discussion and questions

10.20–10.45
Coffee and break

10.45–12.15
High Speed Rail and Metropolitan Regions: greater connectivity, accessibility, economic benefits
- Rail Baltic linking Baltic states, Talis Linkarits, VASAB
- High speed rail in the Metropolitan City of Naples, David Lebro, Councillor, Metropolitan City of Naples
- European High speed trains and effects on land-use / ir Henk JM Bouwman, MSc(arch+urb) AoU fRSA
  Secretary General
  Comments: METREX Panel B
  Paris/France, Technical University of Tampere/Finland, Den Haag/Netherlands

Moderator
Peter Austin, Planning Advisor, City of Oslo

12.15–12.30
Orientation to parallel sessions – main lecture hall

12.30–13.30
Lunch

13.30–14.45
Parallel sessions “Living in the Future Metropolis” + panel discussion
- Panel 1: Social housing & social justice - Could social housing reduce the risk of spatial segregation?
  Chair Mari Randell, City of Helsinki
- Panel 2: Future living in a polycentric metropolis 2050,
  Chair Per Kristensson, Göteborg
- Panel 3: How to achieve zero carbon living? How to motivate changes?
  Chair Michael Erman, Stockholm
- Panel 4: Digital tools as participatory planning support systems,
  Chair Marketta Kyttä, Aalto University, Helsinki
- Panel 5: Circular economy,
  Chair Tuula Antola, City of Espoo
- Consultation clinic by METREX members to give feedback on the study tours
  Chair Valeria Vanella, Metropolitan City of Naples

14.45–15.15
Coffee

15.15–16.00
Conclusions of parallel sessions: Peter Austin and Panel Chairs

16.00–16.15
Summary and Invitation to METREX Spring Conference 2018 in San Sebastian, Gipuzkoa

19.00–21.00
Study trip to livable city and introduction to Finnish culture - sauna and smoke sauna
  Light dinner at own cost at Restaurant ‘Löyly’ and Sauna (free, bring your bathing costume)
  Address Hernesaarenranta 4

Restaurant and Public Sauna ‘Löyly’

**Explore Public transport in Helsinki**

Helsinki Regional Transport Authority (HSL) will provide a 4 day travel ticket from 4–8th October for METREX members to experience the Helsinki City public transport. The travel tickets will be distributed at registration desk.

Please tweet #METREXHelsinki
Panel Session Descriptions

Call for papers! We invite METREX members to present their best practices in the following panel sessions. We hope to find 1-2 presentations for each group, and we kindly advice to prepare a presentation of 5-10 minutes. If you wish to present your case please contact aino.hatakka@hsy.fi.

Panel 1 Social housing and social justice / Why social housing may reduce the risk of spatial segregation
Social housing has been an important tool in ensuring adequate standard of living for everyone, including those with lesser means. It has also been a way to bring balance to fluctuating housing markets. But does social housing create social segregation? Or does it actually help battle it? The Helsinki example has combined residential areas with mixed tenure status, and rather large stock of social housing. The results have been good, but changing policy of access to social housing poses a grave challenge. Examples of different models of social housing policy and land policies are expected.

Panel 2: Future living in a polycentric metropolis 2050:
What are the benefits of a polycentric structure or is it more a process? Assuming polycentricity is the way forward, how can spatial planning support the polycentric urban structure in regional and local planning? Examples of different polycentric models and structures will be discussed and also what kinds of spatial planning tools and policies are required to support them.

Panel 3: How to achieve zero carbon living? How to motivate changes?
Zero carbon living necessitates huge changes in use of energy and materials and transformation in society. All heating energy must be changed to renewable, transportation to low-carbon modes and at the same time energy efficiency needs to be improved. Transformation in society requires a new awareness of the climate change, changes in attitudes, consumption and living. We need to find the best ways to motivate all of these changes. Examples of best ways to motivate changes and examples of zero carbon living.

Panel 4: Digital tools as participatory planning support systems
New online participation tools have enabled effective ways to communicate between the participants and planners. Internet and social media have made planning more transparent and online map-based surveys collect dynamically up-to-date feedback from citizens. Participatory has become less attached to time and space. Huge amounts of information is collected with new online methods like PPGIS (public participation GIS) tools but what kind of knowledge is actually gathered? How much influence the gathered feed-back really has on planning or decision making? Participation is easier to arrange but who can we reach? What are the benefits and weaknesses of the modern tools and practices of participation? Examples of different digital public participation tools and their effects.

Panel 5: Circular Economy
Circular economy is a regenerative system in which resource input and waste, emission, and energy leakage are minimised by slowing, closing, and narrowing material and energy loops. This can be achieved through long-lasting design, maintenance, repair, reuse, remanufacturing, refurbishing, and recycling. This is contrast to a linear economy which is a ‘take, make, dispose’ model of production. In circular economy companies will base their business logic and profit mainly on providing services. In this transformation cities and the public sector are in key role to create a working framework for the new economy. For this to happen, companies, research organisations, cities, regions and the state must engage in a new type of co-operation. How could planning support circular economy? What could be the role of region as a player in circular economy? Examples of plans including circular economy approach.

Call for commentators for the Consultation clinic on Friday afternoon! We invite METREX members to share their ideas and comment on Helsinki region development cases in Helsinki, Espoo or Vantaa. No pre-preparation needed, but please register to relevant study tour.

Consultation clinic by METREX members
Sharing experiences on metropolitan development cases is a fruitful way to enhance mutual learning in the METREX network. Metropolitan regions face similar development challenges but solutions, and contexts might vary. Discussion is needed. In the ‘Consultation Clinic’ we’ll dive deeper in development challenges in three municipalities in the Helsinki Metropolitan area, Helsinki, Espoo and Vantaa. The discussion will be based around questions from the previous conference day study tours. Let’s gather around the table to discuss!
Helsinki City Centre Walk-about, Wednesday 4 October

Helsinki ‘Empire City’ was planned between 1812 and 1817, designed by Ehronström. The plan layout is neo-classical and the architecture is in the ‘Empire’ style, primarily overseen by Carl Ludwig Engel. Engel used wood and rendering to create an ‘Hellenic’ townscape. Now is your chance to find out the hidden treasures of Helsinki’s city centre. The Helsinki Metrex Conference offers a 90 minute walk-about from Eeli Saarinen’s Central Railway Station through the classical and modernist facades of the Old Town, including the Esplanade, Alvar Aalto’s Academic Bookstore, Engel’s Town Hall and Presidential Palace, the ‘Jugend’ exteriors and interiors designed by Lars Sonck, Höijer’s Athenaeum and Hotel Kämp or the gargoyles of Kullervo in Aleksanderinkatu, finishing in the Senate Square. Tram 2 will then deliver us to the offices of City Environment Services in time for the Nordic Network and Expert groups.

Boat trip study tour – Helsinki by-the-sea, Wednesday 4 October

Helsinki new waterfront developments and archipelago: Jätkäsaari, Kruunuvuorenranta, Kalasatama and Herrentoniemi waterfronts.

Study Tours

STUDY VISITS New housing for the Future Helsinki Metropolitan Area, Thursday 5 October

Tour 2. VANTAA by bus: New development areas for Living and Working in Vantaa: City Airport & Aviopolis and Tikkurila
New residential and workplace development areas in Vantaa, including the City Airport and Aviopolis high tech economic area and densifying Vantaa’s central core in Tikkurila.

Tour 3. ESPOO by bus: New development areas for Living and Working in Espoo: Tapiola, Otaniemi, Keilaniemi, city as a service, new Western metro developments
See how the new western metro development corridor is expanding, visit the world famous Garden City of Tapiola as well as the Aalto University Campus of Otaniemi.

Conference Study Tour of Tallinn: Urban Walk, Saturday 7 October
Planning for the future of Tallinn - Opening up the maritime seashore to the City
Organized by Estonian NGO Linnalabor, ferry costs 84 EUR, icluding breakfast 98 EUR, lunch at own cost

Opening up the seaside areas of Tallinn around the main Port and harbours so that they connect with the city centre and the Old Town has been a controversial concern of urban planning in Tallinn over the past 20 years. The Tallinn Conference study tour on the Saturday 7th October promises to examine key issues of new housing development, workplace integration, transport connectivity and accessibility, and climate change impact on the new development areas and their relationship as to how they fit into the existing spatial structure of the City.
The Baltic Space
The Expert Group focuses on a macro-regional approach to the Baltic Space as part of a European network of cities and their metropolitan areas in order to gain a greater insight into the roles of each city-region forming part of the Baltic Space from both a global and European perspective. This includes gaining a better understanding of the long-term challenges and opportunities for those city-regions and to explore common strategies to improve regional competitiveness and achieve greater assimilation of the spatial planning process.

The process includes an overall mega-regional analysis based upon ESPON's Vision 2050 for the EU, with 'drivers of change', key challenges, strengths and weaknesses, and Future Scenarios. The group aims to produce a report in 2018 which will focus on how to achieve a greater symmetry within the Baltic Space.

Metropolitan Governance
European Metropolitan areas are facing new challenges such as the effects of globalization and economic crisis, increased competition between European and global cities, significant social change, national and local public finance crisis and technological innovations, climate change and urban regeneration. In this context, new institutional settings are emerging and new governance models are needed.

The Metropolitan Governance Group aims to address some of these emerging themes and start a discussion and an exchange of knowledge and best practice to achieve a concrete package of recommendations for policymakers. The group decided to reason on territorial systems in a multiscale background, developing a reflection and an exchange of good practices on the issue of Metropolitan Governance with emphasis on institutional cooperation, public-private cooperation, innovation and European funding.

The analysis of these elements and the exchange of participant experiences will culminate in the preparation of a document based on concrete experiences from the participant metropolitan areas, containing an analysis of the factors enabling/limiting the more advanced structure of metropolitan governance and consequent recommendation for policymakers.

URMA
Urban-Rural relationships within Metropolitan Regions and Areas aims to contribute to the European territorial cohesion agenda. Therefore, these relationships have the attention of the European Parliament, Commission and the OECD. The METREX network holds a high level of expertise in this field. Within the URMA Expert Group, this expertise is exchanged and put into practice. The work of the URMA Expert Group has previously led to the INTERREG IVc URMA project and the follow-up INTERREG Europe project RUMORE.

The group is active, based on exchanging good practices, European policy information and lobbying in the field of urban rural relations, exploring new projects and developing an ongoing work program, which previously led to a publication. Developing new activities and connecting to the related Interreg projects URMA and RUMORE are current main topics. This will result in a new work program, which will lead to member demand driven outcomes, scheduled mid-2018.

The Nordic Network
The Network was set up to provide a more efficient collaboration between Nordic METREX city-regions and create a roundtable for discussion to enable each member to keep up to date with the changing circumstances in spatial planning at a more detailed level. This makes it easier to share information and compare with what is happening between neighbouring city-regions. Since its inception, our Baltic neighbours have joined in the discussions.

Key issues include Metropolitan Governance, polycentric process, urban sprawl, connectivity and public transport, managing the city-region structure, workplace and clusters, transnational perspectives, regional shopping, climate change initiatives and the environment.
