METREX Green Recovery Statement

With the output of the sessions, METREX will compose a statement on the Green Recovery, including next steps.

The writing will be coordinated by Łukasz Medeksza, Wrocław, and Sandeep Shingadia, Greater Birmingham. METREX members will be invited to deliver input and support. We will use various media to get your views.

We aim to also organise an event in Spring 2021 with political representatives from Vaanta (Helsinki region) and Milano. The draft statement will be finished in summer to allow all members to respond to it, in order to finalise it by the end of September.

RECOVERY AND RESILIENCE FACILITY

Twin Transitions: Green and Digital

Each recovery and resilience plan will have to include

a minimum of	37 %	for	CLIMATE	investments and reforms
a minimum of	20 %	to foster the	DIGITAL	transition

The Commission will assess national plans against these targets.
